Hi I'm Trent. I design & build  
web applications.

YES, I'M AVAILABLE FOR HIRE

Learn more about what I do

## About Me

# About Me

I'm a full-stack web developer with a passion for creative design and problem solving. I have 3+ years of professional work experience in all phases of the development process. I believe coding is an artform and I work hard everyday at mastering my craft.

## Strategy

I collaborate with clients to transform raw ideas into well thought out designs.

## Responsive

Experienced in creating responsive layouts that look great on all devices.

## UX/UI

I create websites with intuitive UI patterns and simple interactions.

## Code

I focus on writing SOLID code that is efficient, modular and easy to read.

# My Projects

Here are some of my favorite projects that I have done in the past. If you'd like to see more you can checkout my [github](#) or send me an [email](#) with your questions.

**gmaps**  
JavaScript

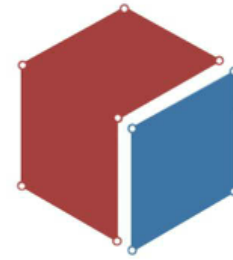

## jQuery Geocomplete

JavaScript

A jQuery plugin for Google Maps Autocomplete. Easily autofill address forms or center a map based on the selected location.

**Poly - Split**  
JavaScript

## Want to work together?

I'm currently accepting new projects and would love to hear about yours.

Send me an email with the details of your request.
